

SWIM ALL YEAR ROUND AND SAVE UP TO 75% ON YOUR ELECTRICITY COSTS

The Most Efficient and Reliable Way to Control your Water Temperature.

Are you looking for the most energy efficient way of heating your spa? Compared to gas or electric heaters, an air sourced heat pump uses a small amount of energy to generate a large amount of heat output. This energy efficient alternative can save you up to 75% on heating costs.

Beta Wellness Heat Pumps are designed to help you get the most from your spa by allowing you to affordably control the temperature 24 hours a day all year round. Just select your desired temperature and your heat pump will heat or cool to help you maintain that temperature automatically.

- **Maximum Efficiency for Higher Outputs**
- **Hydrophilic Fin Evaporator**
- **Heats AND Cools – with auto defrost**
- **Micro Chip Control System**

- **Powered by Premium Brand Compressors**
- **Dual Loop Screw Core Titanium Heat Exchanger**
- **Maximum Durability**
- **Environmentally Friendly**
